

**How to determine which remote client software you require for your CE-DVR040, CE-DVR080 or CE-DVR161 Clinton DVR.**

**Step 1) Go to Setup**

**Step 2) Go to Communications**

**Step 3) To the right of Network Type Box (see below). If this section is blank, you must use 1.54 software (CEDVR161154.zip). If this section contains “Enable New Client SW Interface”, then use 2.04 software (CEDVR161204.zip). This software can be downloaded at <http://www.clintonelectronics.com/Downloads.htm> . Additional support can be answered by calling our main # 815-633-1444.**
