

Meet the PVM of the Future:

THE CONNECT PVM

It's time to connect with your audience.

Meet the revolutionary digital signage platform built for retail! It's both digital signage and an active theft deterrent seamlessly integrated into a single device.

Not just for Loss Prevention...

The Connect PVM is also a valuable tool for Marketing & Operation objectives alike. With the Connect platform, marketing & operation teams can reach their target audience, engage their customers through customizable actions, and build their brand at the point of decision.

FULLY CONNECTED

Change the look and feel of your PVM at a moment's notice. Monitor the health of your PVM and remotely assign content.

FREE CLOUD APP

Create, schedule, and deploy custom-made ad playlists from anywhere in the world with app.clintonconnect.com.

CUSTOMIZABLE ACTIONS

Display custom content when triggered by a motion event, alarm input, button press, person detection, or face detection.

SMART INTEGRATION

Integrate with a wide range of connected devices to optimize customer experience, enhance security, and boost sales.

How it Works: Clinton Connect App

Behind every Connect PVM is our revolutionary cloud-based digital signage management tool: Clinton Connect. With Clinton Connect, retailers can now change the look and feel of their Connect PVMs at a moment's notice. Create, schedule, and deploy custom-made ad playlists from anywhere in the world.

Always Watching

Connect PVMs feature a built-in HD 1080p camera that's always on no matter what's on the PVM screen. Choose from EX-SDI or IP options.

Monitor your Install:

Monitor the health of your devices company-wide! Create custom reports based on the criteria important to you and set up email notifications for critical events.

Quickly Deploy New Content:

Quickly create your ad with our intuitive drag & drop ad builder and preview your ad in real-time. Then deploy your content to your devices with the simple click of a button.

The Secure, Connected Platform You Can Trust

Clinton Connect provides a host of advanced functionality to secure the application, including role-based access, strong encryption, robust password policies, and more. Be it software or hardware solutions, preventing accidental loss or malicious attacks, we are committed to providing a platform you can trust.

2FA and SSO

The Clinton Connect platform supports both Two Factor Authentication (2FA), and Single Sign-On (SSO) via SAML 2.0 for added user identity protection and management.

3rd Party Penetration Tested

The Clinton Connect platform has undergone extensive 3rd party pen testing to ensure that there are no exploitable vulnerabilities or unauthorized access to intellectual property or customer data.
