Install AVMS macOS instructions

1. After downloading AVMS for macOS from www.clintonelectronics.com/downloads, find the ZIP file and unzip/extract.
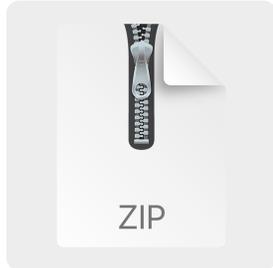

setup_avms_version-number_n.pkg.zip

2. Open the unzipped '.PKG' version of AVMS. On the first install of AVMS: right-click on the .PKG file, then select **Open With > Installer**.

Open
Open With   >   Installer (default)
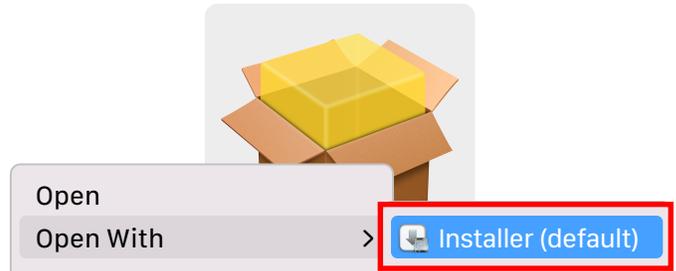

setup_avms_version-number_n.pkg

3. Then, click **Open** when prompted with the message stating macOS cannot verify the developer.

macOS cannot verify the developer of "setup_avms_version-number_n.pkg". Are you sure you want to open it?

By opening this app, you will be overriding system security which can expose your computer and personal information to malware that may harm your Mac or compromise your privacy.

Open   Cancel
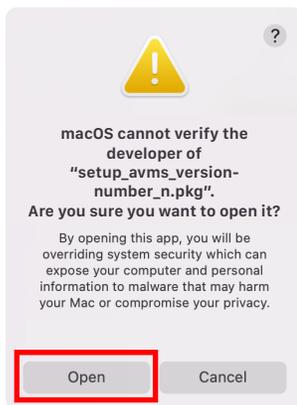

4. Follow the Installer prompts, then click the **Install** button.

Install AVMS

Standard Install on "Macintosh HD"

- Introduction
- Destination Select
- **Installation Type**
- Installation
- Summary

This will take 59.7 MB of space on your computer.

Click Install to perform a standard installation of this software on the disk "Macintosh HD".

Change Install Location...

Customize   Go Back   Install
